

ATIKA[®]

Log splitter **ASP 14 TS-2**

The reliable firewood splitters from the ATIKA ASP TS series.

Prepare your own firewood for your own use without wasting energy.

Powerful and safe according to the latest European standard.

CE

Log splitter **ASP 14 TS-2**

Processing metre-long logs in a power-saving way - the powerful firewood splitter for the professional user.

- Designed according to the safety requirements of the latest European standard;
- with powerful three-phase motor and two forward speeds, even larger quantities of firewood can be processed, infinitely adjustable splitting stroke;
- solid and robust construction;
- smooth-running 2-hand safety operation, more safety when splitting due to the fixing claw and the protective arm;
- + back-friendly and easier work due to the low base plate and the standard log lifter, which sets up the log to be split;
- + the transport wheels and the transport handle enable a quick change of location.

support wheel for an easier transport

fixing claw for safe splitting

sturdy construction

Log splitter

ASP 14 TS-2

Order-no.	301734
3-phase-motor	400 V 3 ~ 50 Hz
Input Power P ₁	3500 W
Splitting force	140 kN (14 t) ± 10 %
Log length	max. 1040 mm
Splitting material	max. Ø 300 mm
Stroke	max. 850 mm
System pressure	24.6 Mpa (246 bar)
Hydraulic oil capacity	7.5 l
Forward speed 1	21.8 cm/s
Forward speed 2	4.2 cm/s
Return speed	5.2 cm/s
Solid rubber wheel	200 mm
Sound pressure level L _{PA}	< 80 dB(A)
2-hand operation	✓
Handle and transport wheels	✓
Protective arm and log lifter	✓
Dimensions (length x width x height)	approx. 1550 x 1050 x 2500 mm
Weight	approx. 184.9 kg

Logistic data

	500 x 755 x 1700 mm
	approx. 194.9 kg incl. pallet

Technical modifications reserved.
