

ATIKA®

Pan mixer **Compact 100**

The compact all-round mixer for modern building materials.

Efficient and suitable for excellent mixing quality.

Significantly better mixing results with up to 60 % time savings.

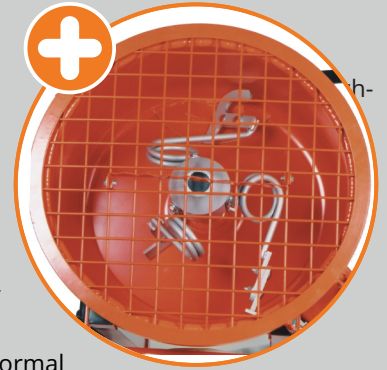

CE

Pan mixer **Compact 100**

Powerful pan mixer - essential for construction site operation.

- The robust and solid construction makes it absolutely suitable for construction sites;
- the spring-loaded 3-fold agitator with its offset mixing arms with mixing paddles and the wall scraper always guarantee an excellent mixing result. It can be quickly removed for maintenance and cleaning without tools;
- safe working - the operating switch is equipped with a quick-stop button and safety off for the lockable drum cover,
- the bag tearer enables easy and dosed filling of the 100 litre drum;
- the segment slider integrated in the drum base facilitates filling of the mixed material: either directly into a bucket with the aid of the folding bucket console or directly into a mortar bucket or wheelbarrow with the bucket console folded upwards;
- + due to the compact dimensions and the large solid rubber wheels, the compulsory mixer can even be transported quickly and easily over stairs to the work site;
- + due to the additional transport wheels, it can also be driven to the construction site in a normal estate car.
