

ATIKA®

Handheld agitator **RLC 40-10 G**

The handheld agitator from the battery-programm **Li-ION TECHNİC SYSTEM 40.**

The handy entry-level for the private user.

Suitable for the production of mixes up to 40 litres.

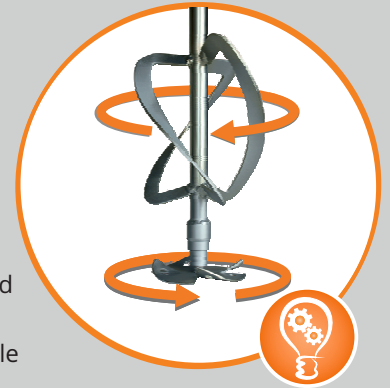

INNOVATION

Rührquirl

Handheld agitator **RLC 40-10 G**

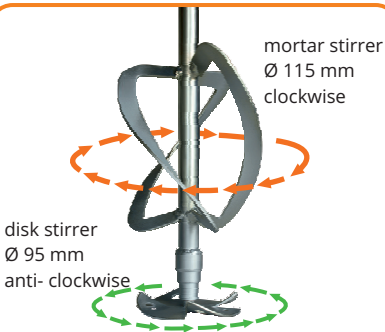

Power-saving operation and efficient mixing of quantities up to 40 litres.

- Take advantage of the **Li-ION TECHNIC SYSTEM 40**: work flexibly, environmentally friendly and economically and use the exchangeable batteries for a selection of devices;
- **innovative** with counter-rotating **mortar and disc stirrer*** which mixes the material faster - 30% to 50% faster mixing is possible. In addition, the effort required during mixing is reduced so that only low counter-torques act on the operator;
- safe working, as the switch-on lock prevents the handheld agitator from being switched on unintentionally;
- the soft start and the infinitely variable speed regulation guarantees low-spray mixing, depending on the quantity and type of mixing material;
- integrated overload protection automatically switches off the agitator in case of overload and thus prevents damage to the engine and gearbox;
- handy but still extremely robust due to the aluminium die casting housing and the stable metal handle;

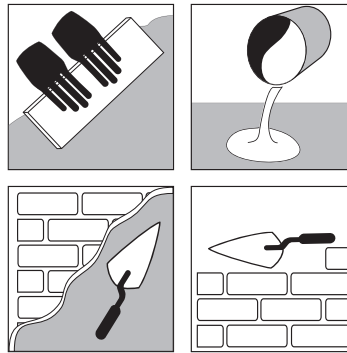

+ with counter-rotating mortar- and disc-stirrer and 2 mounting keys.

INNOVATION 30% - 50% faster than a single stirrer

with counter-rotating beater for materials with liquid, tenacious up to tough consistency: e.g. mortar, knifing fillers, cement, plaster, lime, concrete, flooring plaster, etc....

powerful Li-ION TECHNIC

The batteries and the charger are not included in the scope of delivery and have to be purchased separately! These are compatible and may be used for the **Li-ION TECHNIC SYSTEM 40** of Atika.

Handheld agitator

RLC 40-10 G

Order-no (without battery + charger)	319012
Battery-type	Li-Ion
Battery-rated voltage / capacity	36V ≙ (max. 40 V)
Beater - type	counter rotating mortar- /disc stirrer
- diameter mortar stirrer rod	Ø 115 mm
- diameter disc stirrer rod	Ø 95 mm
- length	570 mm
- adapter	M 18
Idle speed n_0 - mortar stirrer rod	360 - 610 min ⁻¹ (clockwise)
Idle speed n_0 - disc stirrer rod	580 - 940 min ⁻¹ (anti clockwise)
Mixing capacity	approx. 40 l
Sound power level L_{WA}	96 dB(A)
Sound pressure level L_{PA}	85 dB(A)
Measurement uncertainty $K_{LWA/LPA}$	3.0 dB(A)
Hand-arm-vibration a_{vhw}	5.56 m/s ²
Measurement uncertainty K_{avhw}	1.5 m/s ²
Aluminium body	✓
Unit dimensions (mounted)	approx. 845 x 345 x 200 mm
Weight (without battery)	approx. 5.0 kg
Handheld agitator with charger and battery AP 40-2000	article-no. 319012-SET01
Handheld agitator with charger and battery AP 40-4000	article-no. 319012-SET02

Logistic data

	560 x 330 x 205 mm
	approx. 5.7 kg
	575 x 345 x 465 mm [PU 2]
	approx. 12.5 kg

Technical modifications reserved.
