SM 165 G

- robust, powder-coated construction
- specially shaped mixing rakes for good mixing results
- powerful BRIGGS & STRATTON 4-stroke Petrol engine
- ergonomic and smooth-running handwheel with disc brake & foot control for stepless adjustable mixing drum
- Drive pinion and gear rim made of abrasion-resistant cast iron
- water splash-proof metal motor housing
- large wheels, metal rims with solid rubber tyres, for easy transport

Large wheels (Ø 400 mm), with metal rims and puncture-proof solid rubber tyres, for easy transport.

Ergonomic and smooth-running hand wheel with disc brake & foot control for stepless adjustable mixing drum.

High life expectancy thanks to powder coating and abrasion-resistant grey cast iron for the gear rim and drive pinion.

Concrete Mixer	SM 165 G	Logistic Data
Petrol engine	BRIGGS & STRATTON, 4-stroke	REF 07505203
Power	1.2 kW	1200 x 800 x 1500 mm + EP
Drum capacity approx.	160 litres	[PU 1] 101.5 kg + EP
Wheels	solid rubber Ø 400 mm	
Dimensions	1440 x 830 x 1410 mm	4 1006004 1043018
Protection class	II	
Protection degree	IP44	
Sound power level L_{wa}	106.2 dB(A)	
Handwheel with disc brake & foot control	✓	
Gear rim & drive pinion made of grey cast iron	✓	
Weight approx. (N.W.)	101.5 kg	
Order-no.	07505203
